

## ENVIRONMENTAL CARE, QUALITY ASSURANCE AND HEALTH AND SAFETY POLICIES

*Petroquímica Cuyo* undertakes the obligation to ensure the **Quality** of its products and services, taking care of the **Environment** in which it operates and the **Health and Safety** of its personnel, contractors and neighbouring communities. Thus, the Management considers these policies as part of its business and, therefore, it is their priority to assure its spread, comprehension and fulfillment at all levels of the organization.

Management considers Customer Orientation and Teamwork to be essential policies. As a result, this belief encourages each member to take responsibility of their behavior concerning not only individual and collective Safety but also Products Quality Assurance and Environmental Care Performance.

### PRINCIPLES

1. Compliance with legislation in force, clients' prearranged requirements and any other obligation voluntarily undertaken.
2. Implementation of Environmental Care, Safety and Health and Quality Assurance management systems that ensure the fulfillment of this policy, including the following programs:
  - Constant improvement concerning performance.
  - Pollution prevention.
  - Decrease of job hazards and development of better business environments.
  - Increase of client satisfaction.
  - Prevention and response in case of emergency.
3. Promotion of employees' health and living standards.
4. Running business operations in the different facilities by making rational use of energy.
5. Assessment of environmental impacts and health and safety risks of new projects, investments and businesses to be carried out.
6. Proper training for employees and contractors and selection of personnel capable of fulfilling their obligations and responsibilities.
7. Development of resources necessary to comply with this policy and defined goals.
8. Analysis of enquiries introduced by the interested parties and reporting periodically all matters regarding this Policy, Goals and performance.

Company adhered to Argentine CIQyP program known as "Programa de Cuidado Responsable®".

*Enrique Flaiban*  
Managing Director
